PM1, PM2

Power your PQube 3 from a 100~240VAC source

PQube 3 Series:
POWER MANAGEMENT MODULES

PQube 3's can be powered directly from a PoE (Power over Ethernet), a 24VAC, or a 24V~48VDC source. If you want to power your PQube 3 from a 100V~240VAC source, use of one of the following plug-in power management modules:

PM1 *(model PM1-100~240-xxxx)*
- Powers your PQube 3 from 100V~240VAC 50/60Hz or 120V~300VDC

PM2 *(model PM2-100~240-xxxx)*
- All the capabilities of the PM1 module (above) with an added 24VDC output (5W)
